- Friendly, knowledgeable staff.
- Highly trained installers.

Low Maintenance, No Hassles

No paint. No stain. No hassles. Vinyl siding delivers strength, durability, and beauty of real wood with a variety of design options and multiple color options.

Based on an average size home, repainting or staining can cost up to \$6,000 every four years. Vinyl siding never needs painting, caulking or patching because, unlike wood, it won't crack, peel, rot or split

Siding is a Smart Investment

According to a recent study by REMODELING magazine, homeowners who replaced their siding got an excellent return on their investment, recouping 92.8% of the cost! In fact, re-siding is one of the top two improvement investments homeowners can make.

Creating Better Places to Live

James Hardie® is America's #1 brand of siding. Installed on over 4 million homes, James Hardie siding products combine the warmth and character of wood with the unsurpassed durability and low maintenance of fiber-cement. James Hardie backs its siding with up to a 50-year limited transferable product warranty against chipping, rotting, cracking and delaminating.

- Non-combustible
- Resistant to termite and insect damage
- Resists impact damage from wind and hail
- Up to a 50-year limited product warranty
- Charm and character of wood
- Available with ColorPlus® Technology in a wide range of professionally developed colors

Reduce Your Energy Bills and Increase the Curb Appeal of your Home

There are hundreds of vinyl window brands on the market today - but they're not all created equal. Many ordinary vinyl windows are designed only for low cost, not for value. We install top of the line, energy efficient windows for long lasting great looks. Custom Exterior Solutions carries a wide selection of energy efficient products from trusted manufacturers.

Whether you know exactly what you're looking for or are just getting started, we can help. Our experts are here to find the perfect windows and doors for your home.

Curb Appeal and Functionality

Railing systems from Custom Exterior Solutions provide maintenance free quality with beauty and distinction that will last for years. Our vinyl railing combines an attractive appearance with the functional safety benefit of no splinters, nails or sharp edges.

Consider these benefits of our vinyl railing systems:

- Virtually maintenance free
- Aluminum reinforced for added safety
- Never needs painting
- No splitting, warping or twisting
- Won't rot, peel, flake or blister
- Looks freshly painted year after year
- Lifetime limited warranty

Protect Your Home from Costly Repairs

A well-designed and installed gutter system allows you to manage water run-off and adds to the value and curb appeal of your home. Do you have gutters that are clogged? Debris buildup can make your gutters ineffective for draining water off your roof, and provide a breeding ground for unwanted wildlife.

Having the professionals at Custom Exterior Solutions install gutters and gutter guards will help eliminate water running over your house which can lead to erosion, mold and rotten trim.

Add Space and Value to Your Home

Expand your living space and bring the outdoors in by adding a wonderful porch or screen room enclosure. We offer our customers a way to enjoy outdoor living and expand their home while adding an excellent return on their investment. Our enclosures are custom built and will complement the design of your home. Custom Exterior Solutions makes sure that the job gets done in a timely manner and reassures the homeowner that there is no disruption with their schedule
